

EUROTYPE

mechanical braille writer

The Eurotype is a modern solid mechanical 6-dots-braille writer, manufactured by Brailletec in Marburg. Characteristic of the braille-typewriter is the high comfort of writing, especially featured by an excellent print quality and easy handling. It is equipped with adjustable margin stops left and right, margin release, backspace and line-switch key, key interlock at line end and bell (with switch-off key) for acoustic signals. The paper channel system provided on the machine allows to write single sheet paper DIN A4, DIN A3 up to endless paper. Also possible are plastic films or Dymo adhesive tape. It is easy to carry due to its integrated handle.
