

TATRAPOINT STANDARD

mechanical brailier

TATRAPOINT Standard is a mechanical, six-key brailier that takes normal braille paper on a roll. Having a very robust design, this machine is also quiet, safe and easy to operate.

Tatrapoint Standard is also available as a One Hand Keyboard for left resp. right-handed users (right hand brailier has on the left side, left hand brailier on the right side exchanged or expandable key assignment).

Each also available with shortened roll for max. 34 char./line, but then it is not possible to use the paper format 27*34 cm)

Carrying bag included in delivery.

Main features:

- 6-dots braille
- left and right margin adjustable
- key stop at line end
- acoustic signal 6 char. before line end
- margin release key
- inscription of dymo-label-tapes possible
- reading table removable
- rubber feet for non-slip use
